

EventOS – Agency Owner Operational Blueprint & Business Guide

Document Type: Operational Owner Guide & Real-World Workflow Masterclass

Target Audience: Agency Owners, Wedding Planners, Event Directors, Sound/Stage Vendors, Finance Leads

Executive Overview for Agency Owners

Welcome to **EventOS**—the enterprise-grade SaaS operating system built exclusively for Indian and global event businesses.

As an Agency Owner, EventOS replaces your fragmented spreadsheets, PDF generators, WhatsApp chaos, and payment chasing with an end-to-end digital pipeline:

[1. Lead Ingress] → [2. Proposal & E-Sign] → [3. Direct UPI Settlement] → [4. Run-of-Show Timeline] → [5. 4K Media Gallery]

Web / WhatsApp Itemized PDF / Web Link 0% Platform Fee to Bank
AI Conflict Resolver PIN Unlock / ZIP Download

1. LEADS & CRM MANAGEMENT (/crm)

How it works for the Owner:

When a prospective bride, groom, or corporate client inquires via your website form, Instagram ad, or WhatsApp, EventOS automatically captures them as a **Lead** in your visual Kanban Pipeline.

Real-World Indian Wedding Example:

- **Lead Name:** Varsha & Rahul's Destination Wedding
- **Budget Tiers:** ₹15,00,000 – ₹25,00,000
- **Event Dates:** October 12–14, 2026
- **Venue:** The Leela Palace, Udaipur

- **Pipeline Stage Movement:** [New Inquiry](#) → [Requirement Audit](#) → [Proposal Sent](#) → [Negotiation](#) → [Won & Booked](#)

Owner Benefits:

- **Zero Missed Inquiries:** Instant green-tick WhatsApp confirmation sent to the client when a lead submits an inquiry.
- **Lead Scoring:** Highlights high-value clients and upcoming decision deadlines.

2. QUOTATIONS & PROPOSALS ([/quotes](#))

How it works for the Owner:

Instead of spending 3 hours manually crafting PDF estimates in Canva or Excel, EventOS lets you generate **Interactive Web Proposals** with itemized line items, terms & conditions, and built-in **Digital E-Signatures**.

Real-World Proposal Example (Quote # [QT-2026-089](#)):

Item Description	Category	Qty	Unit Price	Line Total
3-Day Wedding Planning & Logistics	Management	1	₹2,00,000	₹2,00,000
Floral Scenography & Mandap Decor	Scenography	1	₹1,80,000	₹1,80,000
JBL Line Array Sound & Stage Pyrotechnics	Production	1	₹86,101	₹86,101
GST Tax (18%)	Tax	1	₹83,899	₹83,899
GRAND TOTAL	—	—	—	₹5,50,000

Client Experience:

- The client receives a secure web link ([/quotes/share/\[token\]](#)).
- They can view the itemized breakdown on mobile/desktop, draw their digital signature on canvas, and click **Approve Proposal**.
- Once approved, EventOS automatically generates the milestone invoices!

3. DIRECT SETTLEMENT PAYMENTS & INVOICING

(/invoices)

How it works for the Owner:

EventOS features a **Dual Payment Architecture**:

1. **Layer 1 (Platform Subscription)**: Stripe handles your SaaS subscription to EventOS.
2. **Layer 2 (Agency Client Payments)**: 100% direct settlement into your agency's bank account with **0% Platform Commission**.

Owner Payment Configuration:

You enter your bank details in **Workspace Settings**:

- **UPI VPA**: `agencyowner@okaxis`
- **Account Number**: `918273645012`
- **IFSC Code**: `UTIB0000123`
- **Account Name**: `Royal Events & Scenography Pvt Ltd`

Real-World Payment Flow:

1. EventOS generates a live NPCI-compliant UPI QR code (`upi://pay?pa=agencyowner@okaxis&pn=Royal%20Events&am=150000...`).
2. Client scans the QR code using Google Pay, PhonePe, Paytm, or BHIM.
3. **₹1,50,000 clears directly into your bank account instantly.**
4. Client enters UTR reference (`UPI/619283719283/GPay`), and EventOS automatically issues an official payment receipt!

4. EVENTS & RUN-OF-SHOW TIMELINE (/events & /timeline)

How it works for the Owner:

Managing multi-day Indian weddings requires micro-second coordination between sound engineers, decorators, artists, and hotel managers. EventOS provides an **Apple-style Journey Timeline** with an **AI**

Real-World Run-of-Show Schedule (Oct 12, 2026):

- **10:00 AM:** Hotel Ingress & Guest Welcome Kits (Coordinator: Rahul)
- **02:00 PM:** Haldi Ceremony & Dhol Crew Sound Check (Venue: Poolside Lawn)
- **05:00 PM:** JBL Line Array & Sangeet Stage Pyrotechnics Test (Venue: Grand Ballroom)
- **07:30 PM:** Baraat Ingress & Royal Groom Procession (Main Gate)
- **09:00 PM:** Main Pheras & Wedding Ceremony (Royal Mandap)

Owner Benefits:

- **AI Conflict Resolver:** Automatically alerts you if vendor schedules overlap (e.g. sound check scheduled at the same time as guest ingress).
- **Vendor WhatsApp Broadcasts:** 1-click broadcast of timeline updates to all crew members.

 5. CLIENT PORTAL & 4K MEDIA GALLERY (/portal & /gallery)

How it works for the Owner & Client:

After the event, you upload high-res photo albums and video reels via **AdvancedUploader**. Your client receives access to their dedicated **Client Portal** (/portal/gallery).

Key Features:

-  **4-Digit Passcode Unlock:** Client enters passcode (e.g. 1234) to unlock private visual assets.
-  **Client Favorites:** Client hearts favorite photos for print album selection.
-  **Photo Comments:** Client leaves comments directly on photos for decorators/planners.
-  **1-Click Full ZIP Download:** Client downloads high-resolution ZIP archives directly from the portal.

 6. SUMMARY OF OWNER VALUE & ROI

Business Problem	Old Spreadsheet / Manual Way	EventOS Enterprise Way
------------------	------------------------------	------------------------

Business Problem	Old Spreadsheet / Manual Way	EventOS Enterprise Way
Lead Tracking	Lost WhatsApp messages & forgotten calls	Visual Kanban CRM with auto WhatsApp replies
Quotation & Contracts	3-hour manual PDF creation in Word/Canva	2-minute web proposal with digital canvas e-signing
Payment Collection	Payment chasing & 2% gateway fees	Scannable NPCI UPI QR with 0% platform fee
Event Timeline	Printing paper schedules that get outdated	Live AI conflict-resolved timeline on mobile
Media Delivery	WeTransfer links expiring in 7 days	Passcode-locked 4K photo proofing gallery

Conclusion:

EventOS gives agency owners full control over their business operations, cash flow, and client experience—delivering an enterprise-grade experience that commands premium pricing.
