

EventOS Frontend Manual QA Testing & Verification Guide

This document provides a comprehensive step-by-step checklist to manually verify every UI component, page, form, modal, and interactive feature across the EventOS web platform.

Prerequisites for Testing

1. **Frontend Dev Server:** Running on `http://localhost:3000` (`npm run dev`).
 2. **Backend Microservices:** Running via `.\load_env.ps1` and Java processes (or Docker Compose).
-

1. Landing Page & Global Navigation

(`http://localhost:3000/`)

- ☐ **1.1 Navbar & Logo:**
 - Click on the **EventOS Logo** in top-left → Verifies instant scroll/redirect to top of home page.
 - Hover over nav links (`Solutions` , `Resources` , `Pricing` , `Docs`) → Smooth hover capsule highlight appears.
- ☐ **1.2 Multi-Tenant Workspace Selector Pill:**
 - Located on top-right of Navbar (displays  `Apex Events & Production`).
 - Click the pill → Glassmorphic dropdown menu opens.
 - Select `Royal Decorators & Scenography` → Active workspace updates in 1 second with toast notification.
 - Click **Sign Out** inside the dropdown → Opens the **Logout Confirmation Popup Modal**.
- ☐ **1.3 Mobile Navigation Drawer:**
 - Resize browser width `<640px` (or open Chrome DevTools Mobile View).
 - Click hamburger menu icon → Solid dark drawer opens seamlessly.

- Click **Solutions** or **Resources** → Accordion sub-menu expands smoothly without backdrop text bleed-through.
 - ☐ **1.4 Hero Section:**
 - Move mouse cursor over hero background → Obsidian dot-matrix canvas spotlight follows cursor dynamically.
 - Click **Instant Quote Generator** button → Navigates to `/quote-calculator`.
 - Click **Live Demo** button → Opens demo preview drawer.
 - ☐ **1.5 Interactive Components & Bento Grid:**
 - Scroll down to **Modules Bento Grid** → Cards feature interactive hover borders.
 - **ROI Calculator Section:** Adjust event budget slider → Calculates instant estimated annual savings.
 - **3D Testimonials:** Click testimonial cards to cycle through client reviews.
 - ☐ **1.6 Live WhatsApp Notification Simulator Widget:**
 - Floating WhatsApp green badge button in bottom-right corner.
 - Badge counter displays unread count (e.g. `3`).
 - Click floating button → Live Booking Dispatch drawer opens.
 - Click **"Test WhatsApp Dispatch"** button → Audio chime triggers, new alert appears at top of stream with Toast notification.
 - Toggle **Live / Paused** simulation state button.
-

2. Authentication & Onboarding Modals

(`AuthModal.tsx`)

- ☐ **2.1 Modal Triggering:**
 - Click **Sign In** or **Get Started** button in Navbar → Backdrop blur darkens, Auth modal animates onto screen.
 - On mobile screens (`<640px`), modal transitions to a full-width bottom sheet (`max-h-[95vh]`).
- ☐ **2.2 1-Click Returning User Profile Card:**
 - If previous session exists, top card displays *"Welcome back, Lokesh Sharma! (Apex Events)"*.
 - Click **"Sign In with 1-Click"** → Authenticates session instantly without re-entering password.
- ☐ **2.3 Email & Password Sign In:**

- Type `john@gma` into email field → Auto-suggestion pill `john@gmail.com` appears below input. Click pill to auto-fill.
 - Type non-business email (e.g. `user@yahoo.com`) → Gentle nudge appears: "Tip: Use your work email for team collaboration".
 - Click eye icon → Toggles password visibility (dots vs plain text).
- ☐ **2.4 WhatsApp 6-Digit OTP Tab:**
 - Switch tab to "WhatsApp OTP".
 - Enter phone number (e.g. `+91 98765 43210`) and click **Send WhatsApp OTP**.
 - Screen transitions to 6-digit PIN input view with countdown timer (`0:59`).
 - Type 6 digits → Auto-verifies and logs in user.
- ☐ **2.5 Registration Tab:**
 - Switch tab to "Create Workspace".
 - Type password → Real-time password strength meter updates (Weak / Good / Strong).
 - Check "I agree to Terms & Privacy" checkbox.
 - Click **Register Workspace** → Redirects to `/onboarding` or `/workspace-select`.
- ☐ **2.6 Logout Confirmation Popup Modal (`LogoutConfirmationModal.tsx`):**
 - Click Logout button in Navbar, Workspace Pill, or Dashboard Sidebar.
 - Warning modal appears: "Sign Out of EventOS? Are you sure you want to end your active session?".
 - Displays user profile & active tenant pill.
 - Click **Cancel** → Modal closes, session remains active.
 - Click **Yes, Sign Out** → Clears session cookies/storage, displays Toast, and redirects to home page (`/`).
-

3. Event Quote Calculator & Proposal Export (`http://localhost:3000/quote-calculator`)

- ☐ **3.1 Event Configuration:**
 - Select Event Category (`Wedding Reception` , `Concert` / `Festival` , `Corporate Gala` , `Private Party`).
 - Drag Guest Count Slider (50 → 2,500 guests) → Subtotal updates dynamically.
- ☐ **3.2 Service Add-ons:**

- Toggle checkboxes for *Stage Scenography, Concert Sound & AV Rigging, 4K Drone Photography, Gourmet Catering*.
- Add custom line item (e.g., "Pyrotechnics", ₹45,000) → Calculated into total cost.

- ☐ **3.3 Promo Code:**

- Type `EVENTOS10` in promo code box and click **Apply** → 10% discount badge applied.

- ☐ **3.4 PDF Proposal Preview:**

- Click **Preview Proposal** button → Official EventOS Proposal modal opens.
 - Click **Download Proposal PDF** → Generates itemized PDF quote file.
-

4. Multi-Tenant Workspace Switcher

(<http://localhost:3000/workspace-select>)

- ☐ **4.1 Workspace Grid:**

- Displays cards for all user workspaces (`Apex Events & Production` , `Royal Decorators` , `Subhub Venues`).
- Displays role badge (`OWNER` , `ADMIN` , `DIRECTOR`).

- ☐ **4.2 Switch Action:**

- Click **Launch Workspace** on any card → Switches active tenant context and opens `/dashboard` .
-

5. Enterprise Dashboard & Finance Hub

(<http://localhost:3000/finance>)

- ☐ **5.1 Financial Analytics & Margins Dashboard (`EventFinancialAnalytics.tsx`):**

- **KPI Cards:** Displays Total Gross Revenue (₹48,50,000), Vendor Expenses (₹28,20,000), Net Profit Margin (₹20,30,000 / 41.9%), Unpaid Invoices.
- **Monthly Area Chart:** Hover over chart data points to inspect monthly revenue vs. vendor expense trends.
- **Cost Allocation Donut Chart:** Hover over pie segments (*Stage & Decor, Catering, Sound & AV, Cinematography, Crew*).

- **Per-Event Profitability Table:** Audits events with client name, revenue, expenses, net profit, margin % pill (`45%`), and status badge (`Paid` , `Partial` , `Pending`).
 - **Currency Switcher:** Toggle `₹ INR` , `$ USD` , `€ EUR` → All numbers format instantly.
 - **Export Action:** Click **Export Analytics** → Toast confirms report download.
 - ☐ **5.2 Dynamic UPI QR Payment Modal (`DynamicUpiQrModal.tsx`):**
 - Click **Generate UPI QR Code** on an unpaid invoice.
 - Displays dynamic UPI QR Code, VPA ID (`eventos.pay@hdfcbank`), and countdown timer (`14:59`).
 - Click **Copy UPI ID** → Copies to clipboard with toast alert.
 - Click **Verify Payment Status** → Simulates real-time UPI transaction clearance.
-

6. Dashboard Sidebar Navigation & Modules

(`http://localhost:3000/dashboard`)

6.1 Workspace Category

- ☐ **Main Overview Dashboard (`/dashboard`):**
 - Top Metric Cards (Total Revenue, Active Events, Total Clients, Conversion Rate).
 - Recent Bookings activity stream & Quick Action FAB.
- ☐ **AI Center (`/ai`):**
 - Prompt input for AI Event Generator (e.g. *"Plan 500-guest Beach Wedding"*).
 - Generates instant vendor checklist, budget estimation, and timeline.
- ☐ **Workspace Chat (`/chat`):**
 - Multi-user team chat channel (`#general` , `#logistics` , `#vendors`).
 - Send message → Appears in chat thread with timestamp.
- ☐ **Activity Logs (`/activity`):**
 - Displays real-time audit trail of user actions (login, contract signs, invoice payouts).

6.2 Operations Category

- ☐ **CRM / Lead Pipeline (`/crm`):**
 - Kanban Board view with drag-and-drop stages (*New Lead* , *Contacted* , *Proposal Sent* , *Won* , *Lost*).
 - Click **Add Lead** → Lead modal opens.
- ☐ **Events & Calendar (`/events`):**
 - Interactive Month/Week/Day event calendar view.

- Click an event → Opens Run-of-Show timeline modal.
- ☐ **Bookings Management (/bookings):**
 - Active venue & vendor bookings list with filter by status (`Confirmed` , `Pending Deposit` , `Completed`).
- ☐ **Media Gallery (/gallery):**
 - Event photo booth masonry grid & EXIF Lightbox metadata modal.

6.3 Finance Category

- ☐ **Quotes (/quotes):**
 - List of generated client proposals & quotes. Click to view PDF.
- ☐ **Finance Hub & Profit Margins (/finance):**
 - Real-time revenue vs expense area charts, cost allocation donut, per-event profitability audit table (`EventFinancialAnalytics.tsx`).
- ☐ **Payments (/payments):**
 - Payment transaction history ledger (UPI, Stripe, NetBanking, Cash).
- ☐ **Invoices (/invoices):**
 - Invoice generation, PDF export, dynamic UPI QR modal (`DynamicUpiQrModal.tsx`).
- ☐ **Budget Calculator (/calculator):**
 - Event cost estimation calculator with line-item breakdown.

6.4 Intelligence & Automation Category

- ☐ **Reports & Analytics (/reports):**
 - Monthly revenue growth, client acquisition, and staff performance metrics.
- ☐ **Smart Automation Engine (/automation):**
 - Visual workflow builder (e.g., *Trigger: New Lead → Action: Send WhatsApp Confirmation & Create Task*).
- ☐ **Data Import (/import):**
 - CSV / Excel lead & vendor data importer with field mapping preview.

6.5 System & Portals

- ☐ **Client Portal (/portal):**
 - Client-facing dashboard where event clients view event timeline, pay invoices, and sign contracts.
- ☐ **Developer Center (/developer):**
 - REST API specifications, Swagger UI, and Webhooks API key generator.
- ☐ **Help Center (/help):**

- Knowledge base articles & search helper ([HelpSearch.tsx](#)).
-

7. Settings Hub & Administration Menus

(<http://localhost:3000/settings>)

- ☐ **7.1 General Workspace Profile:**
 - Edit Workspace Name (e.g., [Apex Events & Production](#)).
 - Upload Business Logo (PNG/JPEG) → Verifies image thumbnail updates.
 - Change Default Currency ([₹ INR](#) , [\\$ USD](#) , [€ EUR](#)) and Timezone ([Asia/Kolkata - IST](#)).
 - Input Tax / GSTIN ID (e.g. [27AAAAA0000A1Z5](#)) → Click **Save General Settings** (Toast notification confirms update).
- ☐ **7.2 Team Members & Access Control:**
 - Navigate to **Team** tab inside Settings.
 - Click **Invite Member** button → Invite modal opens.
 - Type member email ([rahul@apexevents.com](#)) and select Role ([EVENT_MANAGER](#)).
 - Click **Send Invitation** → Member added to pending invites table.
 - Click **Revoke Access** on an active member → Confirmation dialog prompts.
- ☐ **7.3 Billing, Subscriptions & Quotas:**
 - Navigate to **Billing** tab inside Settings.
 - Current Active Plan displays badge ([STARTER](#) , [PRO](#) , or [ENTERPRISE](#)).
 - View Quota Usage Progress Bars (*Events used, Storage used, AI Credits, Gallery Uploads*).
 - Click **Upgrade Plan** → Opens Plan Selection Modal (Stripe Checkout flow).
 - Click **Download Invoice PDF** in recent billing invoices table.
- ☐ **7.4 Custom White-Label Branding ([WhiteLabelSettings.tsx](#)):**
 - Navigate to **White-Label & Domain** settings tab.
 - Type Custom Domain (e.g. [events.apexevents.com](#)) and click **Verify DNS**.
 - Badge updates to [DNS Verified](#) or [Pending CNAME Record](#) .
 - Toggle **Enable White-Label Email Sender** (e.g., [notifications@apexevents.com](#)).
- ☐ **7.5 Payment Gateway Integration Engine ([PaymentEngineSettings.tsx](#)):**
 - Navigate to **Payment Gateways** tab.
 - Input Stripe Test / Live Keys ([pk_test_...](#) / [sk_test_...](#)).

- Input UPI VPA Merchant ID (`eventos.pay@hdfcbank`).
 - View Live Webhook status indicator (`Status: Connected`).
- ◻ **7.6 WhatsApp Business API Integration (`WhatsAppApiSettings.tsx`):**
 - Navigate to **WhatsApp Integration** tab.
 - Input WhatsApp Phone Number ID & Access Token.
 - Preview Approved WhatsApp Template Cards (*Booking Confirmation, Payment Reminder, Staff Dispatch*).
 - Toggle **Auto-Reply Bot Agent** switch.
 - ◻ **7.7 Security, 2FA & Active Sessions (`/settings/security`):**
 - Navigate to `/settings/security` .
 - Type Current Password, New Password, Confirm Password → Click **Update Password**.
 - Toggle **Two-Factor Authentication (2FA)** → TOTP QR Code setup modal displays.
 - Click **Sign Out All Devices** → Triggers session invalidation.

Test Execution Summary Matrix

Module	Feature Tested	Pass / Fail	Notes
Landing	Navbar & Mobile Drawer	[] Pass	
Landing	Workspace Selector Pill	[] Pass
